Faster workflows for you, faster access for your users

**Shelf-ready options from OCLC**

OCLC® offers a variety of shelf-ready options—all of which streamline your workflows and make new materials available sooner and expose hidden collections to your users. Your materials are ready to shelve with accompanying cataloging records, which frees your staff for higher priority tasks. And because holdings are set automatically in WorldCat, your collection is more visible on the Web through familiar search engines like WorldCat.org.
